

5th Global Research Platform Workshop (5GRP)

Co-Located with IEEE eScience 2024
September 16-17, 2024, Osaka, Japan

本日の暑さ指数（WBGT）予測
Today's WBGT (Wet Bulb Globe Temperature) Forecast

熱中症警戒アラートが発表されています！
Heat Stroke Alerts have been issued!

9:00	12:00	15:00
 厳重警戒 Severe Warning	 危険 Danger	 危険 Danger

環境省が公表している「熱中症予防情報サイト」をもとにお知らせしています。
This information is based on the "Heat Illness Prevention Information" published by the Ministry of the Environment.

暑さ指数 (WBGT)	注意事項 (Guidelines for daily life)
 危険 Danger	高齢者においては安静状態でも発生する危険性が高い。 外出はなるべく避け、涼しい室内に移動する。 Elderly people have a higher risk of developing the disease even when they are resting. Avoid going out as much as possible and stay in a cool room.
 厳重警戒 Severe Warning	外出時は炎天下を避け、室内では室温の上昇に注意する。 Avoid the scorching sun when outdoors, and be careful of the rise in room temperature when indoors.
 警戒 Warning	運動や重たい作業をする際は定期的に充分に休息を取り入れる。 Take regular and sufficient breaks when exercising or doing strenuous work.
 注意 Caution	一般に危険性は少ないが暑い運動や重たい作業時には発生する危険性がある。 Although this risk is generally low, it can occur when exercising or working hard.

What should I do if the WBGT is high?
→ Take measures to prevent heat stroke!

Take frequent breaks.
Wear a hat.
Wear light/cool clothes.
Drink frequently.
Rest in the shade.

Welcome to 5GRP!

Co-Location with IEEE eScience 2024

- To access Program, go to GRP home page; there is a link to 5GRP.
- Speakers will be timed. Make note of times in Program
- Presentations will be posted on 5GRP website.
- Email me if you want to be added to GRP website.

Joe Mambretti, Workshop Chair, j-mambretti@northwestern.edu

Maxine Brown, Workshop Coordinator, maxine@uic.edu
